

JOB POSTING

The working group plant pathology of Professor Dr. Djamei is looking for the time period of 6 month **from now** for:

- a student helper for 6 month (9 hours a week) for the study program „MadFungi“.

You will clone under supervision of a PhD student by the Golden Gate technique CrispR/Cas9 constructs and learn to purify gRNA-loaded Cas9 proteins from *E. coli* for transfection into the important plant pathogenic fungus *Magnaporthe oryzae*.

Interested parties first receive an introduction to the project and the methods that will be used in the laboratory.

The ideal candidate should have worked in the field of molecular biology and being familiar with protein purification and like working with plants but most importantly being reliable and highly motivated!

If you are interested in please send your short application with CV to the following e-mail address: pflanzenkrankheiten@uni-bonn.de
